Future proof your career by mastering the most innovative ediscovery platform available to legal professionals.

Access premium content to strengthen existing knowledge and acquire new techniques.

Learn from experts who helped develop content based on real-world ediscovery needs.

DISCO Certifications

DISCO Certifications verify that users have demonstrated a mastery level of expertise of DISCO Ediscovery and industry best practices for their specific role. A certification from DISCO is one of the best ways to future-proof your ediscovery career and be formally recognized as a next-generation ediscovery expert, with the digital badge to prove it.

Search and Review

Ready to prove that you can find any document, any time? Complete the Search & Review certification to show you know:

- Core DISCO review functions
- Search and review strategies
- Document review best practices
- Foundations of DISCO AI tag predictions

Data Management

Would your colleagues describe you as a “data boss”? Do you love making sense of complex files and searching for needles in haystacks? This one’s for you. Topics include:

- Advanced search capabilities
- Ingesting and remediating data
- ECA and matter management
- Producing documents and closing matters

“From the basics to the most complex workflows, only a few hours of training from DISCO equipped our team of 40 attorneys to dive right into our case.”

— JoDee Neil, Attorney, Simon Greenstone Panatier

Review Management

Are you the conductor when it comes to orchestrating all of the details to efficiently run a document review? This certification proves your mastery over:

- Matter and review workflow management
- DISCO AI and advanced optimization tactics
- Search term reporting
- Managing productions and exhibit sets

Project Management

Ready to flex your management muscles and strut your ultimate DISCO power user status? This comprehensive certification proves that you’re a heavyweight champ when it comes to:

- Matter and review workflow management
- Optimizing workflows and search shortcuts
- Advanced search term reporting
- Creating and leveraging privilege logs
